

- Does the soul manifest as an aspect of “self” that exists before and after this life?
- Is the soul there from birth (or conception or sometime in pregnancy)?
- Is there no “soul”, you just are what you are, you come and you go?
- Do you have soul “mates” or soul connections on this earth plane that exist from past lives?
- Do you have soul “mates” or soul connections that you engage with in the afterlife.
- Is it that at death, one’s soul leaves the body and that decision is influenced by those around them?
- Is the soul’s departure a decision made by others/self?
- It is impossible to detect the soul in the energetic field?
- Is the vibration of the soul different than the physical vibration?
- Is the soul found in all the layers of the field? Is it separate?
